Mr. Gustavo Gasperin

Kent, Ohio 44240 • contact.gasperin@gmail.com • linkedin.com/in/gustavogasperin • https://gustavo-gasperin.github.io/

PROFESSIONAL SUMMARY

Detail-oriented Computer Engineering Technologist with hands-on experience in IT support, embedded systems, PLCs, and networking. Proven ability to troubleshoot complex systems and am eager to use my technical skills to continuously expand my knowledge and secure a successful career in the engineering field while meeting and exceeding company goals.

EDUCATION

Masters in Engineering Technology — Expected Graduation: **Spring 2027**
Kent State University — Kent, Ohio, United States
Major: Engineering Technology

Bachelor of Science — Graduation: **Fall 2025**
Kent State University — Kent, Ohio, United States
Major: Computer Engineering Technology; Minor: Business — GPA: 3.90

Interdisciplinary Bachelor of Science and Humanities — Graduation: **February 2026**
Pontifícia Universidade Católica do Paraná — Curitiba, Paraná, Brazil
GPA: 3.92

Associate of Science — Graduation: **December 2022**
Kent State University — Kent, Ohio, United States
GPA: 3.92

TECHNICAL SKILLS

Tier 1 and 2 IT Support; IT operations; Computer Hardware; Networking; Server Administration; Active Directory; Microsoft Azure management; C Programming; Cascading Style Sheets (CSS); JavaScript; HTML5; Version Control; Front-End Web Development; React (Web Framework); Application Development; and Building Circuits.

PROFESSIONAL EXPERIENCE

Kent State University – College of Sciences & Humanities

Technology Administration — Graduate Assistant — **Jan 2026 – Current**

- *Systems & Infrastructure:* Managed Active Directory, Azure, and JAMF; executed multi-OS endpoint provisioning (macOS, Windows, Linux) and handled hardware diagnostics and repair triage.
- *Technical Support:* Delivered Tier 1/2 support for faculty and students, integrated specialized laboratory systems, and co-facilitated weekly ticketing operations.
- *Leadership & Operations:* Mentored incoming technicians, evaluated candidates on hiring panels, and delivered on-site AV and IT production for live events.

Lead IT Support Analyst — **May 2024 – Dec 2025**

IT Support Analyst — **August 2023 – May 2024**

Associate IT Support Analyst — **April 2023 – July 2023**

ENGINEERING PROJECTS AND EXPERIENCES

Computer Engineering Technology Capstone – Smart Toolbox

- Designed, 3d modeled, and assembled a smart toolbox embedded system with an Arduino 2560 Mega, with pressure plates, LED screen, keypad, and servos to log and track tools based on different user access.

Networking Capstone – Midsize Enterprise Network

- Designed and configured a midsize enterprise network in Cisco Packet Tracer, creating from scratch a network design/topology, IP addressing/subnetting tables, and implementing STP, Ether Channels, Trunking, VLANs, NAT, OSPF, HSRP, SSH, HTTP, HTTPS, DNS, and DHCP protocols.

Applied Embedded System Capstone – Simulating Car functions.

- Designed multiple car-embedded systems with an Arduino Uno 3. Used both programming in C and knowledge of computer engineering electronics.

INTEL Semiconductor Manufacturing Technology Course

- Lectures and hands-on cleanroom-based semiconductor fabrication experience.

LICENSES & CERTIFICATIONS

Programming Foundations with JavaScript, HTML, and CSS — **May 2023**
Duke University | Coursera

Programming with JavaScript; React Native; Version Control — **June 2023**
Meta | Coursera

RELEVANT COURSEWORK

Programming for Engineers I (in C programming), Introduction to Cybersecurity, Computer Hardware, Networking I & II, Network Security, Wireless Network and Telecommunications Systems, Survey of Electricity and Electronics, Systems Engineering, Digital Design for Computer Engineering, Electronic Communication, IT Security, Project Management in Engineering, Server Administration and Configuration I & II, Applied Embedded Systems I, and Programmable Logic Controllers.

HONORS & AWARDS

Dean's List — **Spring 2021, 2022, 2023, 2024. Fall 2023, 2024**

President's List — **Fall 2021, Fall 2022, Spring 2025**

VOLUNTEER EXPERIENCE

Assist M.E., Charlotte, North Carolina — **Spring 2022**
Social Media Management Intern *(online)*

LANGUAGES

Portuguese (Native); English (Fluent).
